

FRONT-END BATTLE 2.0

ROUND 1 - REPLICATE & INNOVATE

Date: June 19, 2025

Time: 2:00 PM - 6:00 PM IST
(4-hour duration)

PROBLEM STATEMENT

Welcome, frontend developers, to the first round of our highly anticipated Frontend Battle! This round challenges your ability to meticulously **replicate a given design** while demonstrating your flair for **creative enhancements and robust implementation**.

You will be provided with a drive link containing a comprehensive set of resources, including images, videos. Your task is to develop a responsive web page that includes the maximum number of features from the resource provided and in the most meaningful way. Beyond mere replication, we encourage you to **innovate** by adding subtle yet impactful features or improvements that elevate the user experience, without deviating from the core aesthetic.

Think of yourself as a pixel-perfect artisan who can also bring a touch of magic to their creations.

Resources Provided

Follow this Google Drive link containing:

- High-resolution images
- Video assets

Submission Guidelines

To ensure fair evaluation, all submissions must adhere to the following conditions to be considered valid:

1. **Strict Adherence to Time Limit:** Submissions will only be accepted between **2:00 PM IST and 6:00 PM IST on June 19, 2025**. Any submission received after 6:00 PM IST will be disqualified.
2. **Working & Deployed Application:**
 - Your solution must be deployed and publicly accessible via a **live URL**. This could be on platforms like Netlify, Vercel, GitHub Pages, or similar.
 - The deployed application must be **fully functional** and accessible without requiring any special setup or credentials (unless specified otherwise for unique features).
3. **Source Code Repository:**
 - You must provide a link to a **public GitHub repository** containing all your source code.
 - The repository must be accessible and include all necessary files for the project to run.

- Crucially, no commits made to the repository after 6:00 PM IST on June 19, 2025, will be considered for evaluation. Any commits after the deadline may result in disqualification.
- The repository should have a clear README.md file with instructions on how to set up and run your project locally.

4. Use of AI tools :

- Since it is a vibe coding competition, all the AI tools and code generation LLMs can be freely used without any limit. **BUT YOU HAVE TO MENTION THE AI TOOLS USED.**

Mandatory Features for a Valid Submission

For your submission to be considered valid and move forward to the judging phase, it must meet the following minimum criteria:

1. **RESPONSIVENESS** : Any layout breakout or non-responsiveness will be severely punished.
2. **FEATURES** : At least 6 features among the sample space must be implemented.
3. Light and Dark mode should be implemented
4. Loader given in the drive link should be implemented
5. Have a proper navbar and all the heading properly linked to their respective sections.

Submissions failing to meet these minimum feature requirements will be automatically disqualified, regardless of other aspects.

Judging Criteria

Submissions will be evaluated based on the following:

- **Design Accuracy (40%):** How closely the submission matches the provided design mockups and assets.
- **Responsiveness (25%):** How well the layout adapts to different screen sizes and orientations.
- **Innovation/Enhancements (20%):** The quality and impact of any creative additions or improvements beyond the basic replication. (e.g., subtle animations, improved accessibility features, minor functional enhancements).
- **Code Quality & Best Practices (15%):** Readability, organization, adherence to web standards, and efficient use of HTML, CSS, and JavaScript.

We wish all participants the best of luck! May your code be clean and your designs be pixel-perfect!
